TRAINING OVERVIEW

3 Pre-Session Zoom Calls

The journey begins with three pre-session Zoom calls to build participant connections, review the schedule, cover logistics, and introduce ethics and coaching fundamentals. These sessions ensure a supportive environment and familiar faces at the first in-person meeting, in Banff.

In-Person Training (Days 1–10, Banff, Alberta)

The training begins with an opening circle and evening session. Days 2 and 3 offer a full immersion into the two-day Love Yourself, Heal Your Life® workshop from a participant's perspective. The remainder of the retreat focuses on workshop facilitation, licensing, and exploring the 10-day format and up to 14 additional workshop possibilities. Participants also receive comprehensive coach training, including ethics, core competencies, coaching styles, and hands-on practice. The in-person training wraps up with integration, planning future offerings, a business building workshop, and an optional Teen Self-EmPOWERment Training certification. (There is an extra fee for the the teen program.)

Post-Training Support

After the retreat, Zoom calls provide continued support, with continued information on marketing, social media, branding, and material review. Graduates earn dual certifications as Licensed Heal Your Life® Workshop Teachers and Heal Your Life® Coach. To become a **licensed Coach**, participants must complete a supervised online practicum (approx. 20 hours). This practicum enhances skills, confidence, experience, and business readiness for those wishing to coach professionally. What Does a Heal Your Life® Coach Offer?

A Heal Your Life® Coach is a professional who helps individuals achieve personal growth, healing, and transformation using the principles and techniques developed by Louise Hay, an influential self-help author and speaker. Heal Your Life® Coaching is based on the philosophy that our thoughts and beliefs shape our experiences and that by changing our mindset, we can create positive change in our lives.

The main objective of Heal Your Life® Coaching services is to support individuals in creating a life that aligns with their desires, values, and personal goals. Some specific objectives of these services may include:

- 1. Self-discovery:** Heal Your Life® Coaches help clients explore their beliefs, patterns, and thought processes to gain a deeper understanding of themselves. By becoming aware of limiting beliefs and negative self-talk, individuals can work towards transforming their mindset.
- 2. Identifying and changing limiting beliefs:** Heal Your Life® Coaches assist clients in identifying self-limiting beliefs that may be holding them back from achieving their goals. Through various techniques such as affirmations, visualizations, and journaling, coaches help clients replace these beliefs with more empowering ones.
- 3. Enhancing self-esteem and self-love:** Heal Your Life® Coaches focus on helping clients develop a positive self-image, improve self-esteem, and cultivate self-love. They provide support, guidance, and tools to build self-confidence and embrace self-acceptance.
- 4. Setting and achieving goals:** Coaches assist clients in setting meaningful goals aligned with their desires. They help clients create action plans, maintain accountability, and navigate obstacles to move towards their goals effectively.
- 5. Healing emotional wounds:** Heal Your Life® Coaches provide a safe and compassionate space for clients to explore and heal emotional wounds from the past. They guide clients through processes to release emotional pain, forgive others and themselves, and cultivate emotional well-being. A HYL coach will be trained to recognize when the client needs counselling and will have those resources available for the client.
- 6. Improving relationships:** Coaches support individuals in improving their relationships with others by helping them develop effective communication skills, setting healthy boundaries, and fostering empathy and understanding.

Heal Your Life® Coaches aim to empower individuals in achieving personal growth, healing, and overall well-being in all areas of their lives.

Details About Heal Your Life® Coach Training

This comprehensive training advances you to a level far more in-depth than non-experiential training. In-person training creates community and connection that enhances learning and growth.

The action-packed training encompasses personal growth, skills development, and tools, as well as extensive business building and marketing plans. We help you learn to understand yourself on a deeper level and to communicate with others more effectively. Each day is fully utilized. We remember to take breaks and encourage time in nature to help with self-renewal.

Victoria Johnson and her team ensure that you have the tools and practice necessary to coach in whatever your area of passion is. People often choose to specialize in a more specific niche, such as relationships, health, recovery, and so on. We help with all of that – grounded in a strong Heal Your Life® foundation.

As you simultaneously train to become a Heal Your Life Workshop Teacher, you will find that the skills learned in each segment build on each other. You will evolve into a person who understands the foundation of the work, learning to love yourself and healthily manage your feelings and emotions, freeing yourself to forgive and learn, so that you can live the life you desire and help your clients to do the same.

We will cover multiple training sessions where you will be the “coach trainee” and others where you will be the “coachee.” This gives you several hours of real-life scenarios to work with. We continue to work on your personal growth, mind-body connection, and increasing your trust in your abilities. At the end of each segment, we debrief to find out what worked for you and situations where you may need to look at other ways of saying/doing things to fine-tune your skills and increase your confidence.

We study personality tendencies so that we can understand our own communication styles and communicate more effectively with others. This is a very informative time, and many laughs are shared as we recognize what makes us the way we are, and increase our understanding and awareness of other communication styles.
