WHAT DOES A HEAL YOUR LIFE® COACH OFFER?

A Heal Your Life® Coach is a professional who helps individuals achieve personal growth, healing, and transformation using the principles and techniques developed by Louise Hay, an influential self-help author and speaker. Heal Your Life® Coaching is based on the philosophy that our thoughts and beliefs shape our experiences and that by changing our mindset, we can create positive change in our lives.

The main objective of Heal Your Life® Coaching services is to support individuals in creating a life that aligns with their desires, values, and personal goals. Some specific objectives of these services may include:

1. **Self-discovery:** Heal Your Life® Coaches help clients explore their beliefs, patterns, and thought processes to gain a deeper understanding of themselves. By becoming aware of limiting beliefs and negative self-talk, individuals can work towards transforming their mindset.
2. **Identifying and changing limiting beliefs:** Heal Your Life® Coaches assist clients in identifying self-limiting beliefs that may be holding them back from achieving their goals. Through various techniques such as affirmations, visualizations, and journaling, coaches help clients replace these beliefs with more empowering ones.
3. **Enhancing self-esteem and self-love:** Heal Your Life® Coaches focus on helping clients develop a positive self-image, improve self-esteem, and cultivate self-love. They provide support, guidance, and tools to build self-confidence and embrace self-acceptance.
4. **Setting and achieving goals:** Coaches assist clients in setting meaningful goals aligned with their desires. They help clients create action plans, maintain accountability, and navigate obstacles to move towards their goals effectively.
5. **Healing emotional wounds:** Heal Your Life® Coaches provide a safe and compassionate space for clients to explore and heal emotional wounds from the past. They guide clients through processes to release emotional pain, forgive others and themselves, and cultivate emotional well-being. A HYL coach will be trained to recognize when the client needs counselling and will have those resources available for the client.
6. **Improving relationships:** Coaches support individuals in improving their relationships with others by helping them develop effective communication skills, setting healthy boundaries, and fostering empathy and understanding.

Heal Your Life® Coaches aim to empower individuals in achieving personal growth, healing, and overall well-being in all areas of their lives.

ABOUT HEAL YOUR LIFE® TRAINING

This comprehensive training advances you to a level far more in-depth than non-experiential training. In-person training creates community and connection that enhances learning and growth.

The action-packed training encompasses personal growth, skills development, and tools, as well as extensive business building and marketing plans. We help you learn to understand yourself on a deeper level and to communicate with others more effectively. Each day is fully utilized. We remember to take breaks and encourage time in nature to help with self-renewal.

As you train to become a Heal Your Life® Workshop Teacher, you will find that the skills learned in each segment build on each other. You will evolve into a person who understands the foundation of the work, learning to love yourself and healthily manage your feelings and emotions, freeing yourself to forgive and learn, so that you can live the life you desire and help your clients to do the same.

By the end of the workshop teacher training you will have the materials and scripts to offer 14 different Heal Your Life® Workshops.

In addition, Victoria Johnson and her team ensure that you have the tools and practice necessary to coach in whatever your area of passion is. People often choose to specialize in a more specific niche, such as relationships, health, recovery, and so on. We help with all of that – grounded in a strong Heal Your Life® foundation.

We will cover multiple training sessions where you will be the “coach trainee” and others where you will be the “coachee.” This gives you several hours of real-life scenarios to work with. We continue to work on your personal growth, mind-body connection, and increasing your trust in your abilities. At the end of each segment, we debrief to find out what worked for you and situations where you may need to look at other ways of saying/doing things to fine-tune your skills and increase your confidence.

We study personality tendencies so that we can understand our own communication styles and communicate more effectively with others. This is a very informative time, and many laughs are shared as we recognize what makes us the way we are, and increase our understanding and awareness of other communication styles.

Heal Your Life® Coaches aim to empower individuals in achieving personal growth, healing, and overall well-being in all areas of their lives.

MEET YOUR TRAINER

Victoria Johnson Ph.D., PCC

Victoria Johnson is highly committed to her work as the Heal Your Life® Workshop Teacher Trainer and Advanced Coach Trainer in Canada. She also teaches the Heal Your Life® Teen EmPOWERment program at her training events. Victoria shares her business and marketing skills with enthusiasm both during the training event and after.

After receiving her original Heal Your Life training in 2012, Victoria became very aware of the impact that we all have on each other's lives. She learned to trust herself as a leader, recognizing that we all yearn for love and acceptance, and that making a difference during our time here is essential.

Victoria is among a relatively small number of coaches worldwide to hold the International Coaching Federation's Professional Certified Coach (PCC) credential. She has also earned provisional recognition in the new ICF Mentor Coach Specialization (MCS), placing her among an early group of coaches recognized for advanced skill in developing and mentoring other coaches.

As an internationally recognised Heal Your Life® Trainer and an ICF-approved educator, Victoria Johnson is uniquely qualified to offer Continuing Coach Education (CCE) credits alongside her certification programs. When you train directly with Victoria, you'll earn 40 CCE credits (26 in Core Competencies and 14 in Resource Development) to support your ICF credential renewal and elevate your professional growth.

Victoria is the only Heal Your Life® trainer worldwide authorised to provide ICF-approved CCE credits. This makes her programs a rare and valuable opportunity for coaches who want to deepen their skills and advance their ICF credentials while learning directly from one of the most respected trainers in the field.

MEET YOUR TRAINER

Victoria Johnson brings together decades of knowledge in personal transformation, counselling, coaching, facilitation, business development, writing, marketing, and professional training. Her trainees experience an unusually comprehensive foundation for both the personal and professional sides of this work.

Victoria is passionate about helping people create greater emotional, spiritual, and personal fulfillment — and, for those who feel called to do so, helping them turn that transformation into meaningful work that supports others.

As a bestselling author, Victoria understands the power of words to create change. Her book Do That & Then Some: Transform Feelings of Less Than to More Than Enough has reached #1 on Amazon seven times, and she has also written its companion workbook and a trilogy of children's books. She regularly incorporates writing, reflection, and practical personal-development tools into her teaching.

Victoria is also an experienced entrepreneur and business owner with extensive knowledge of marketing, social media, program development, client attraction, and building sustainable service-based businesses. She openly shares that practical knowledge with her students so they leave training with more than a certificate; they leave with a clearer understanding of how to apply this knowledge.

Her teaching style is warm, conversational, practical, and highly experiential. You will laugh, learn, stretch, reflect, and very likely see yourself differently by the end of the experience. Most importantly, Victoria's relationship with her trainees does not end when the training ends. She believes certification should be the beginning, not the goodbye.

Through mentoring, practicum support, continued learning, and an active professional community, Victoria remains accessible as her graduates begin facilitating workshops, coaching clients, developing programs, and finding their own unique place within the Heal Your Life® community.

When you train with Victoria, you are not simply learning the Heal Your Life® philosophy, you are experiencing it. You are supported by a leadership team who understands personal transformation, professional coaching, facilitation, business, marketing, and what it takes to turn this work into something meaningful in your community. That combination is what makes this training experience distinctly different and life changing.
